

# Forest Decking

[WWW.FORESTDECKING.CO.UK](http://WWW.FORESTDECKING.CO.UK)

Forest Decking supply and fit the best quality products available on the market, most of which are made from recycled materials. All deckings are designed using the latest technology, and offered at a reasonable and realistic price to give performance and the perfect appearance of each individual deck.

Our team works nationwide offering holiday home decking to all major holiday parks.

Forest Decking provide an extensive range of decking products to suit the requirements and exceed expectations of most customers. Usually materials are all cut off site in the factory meaning less mess, less time and less hassle on site for fitting.

Beautiful, long lasting and low maintenance!

Modern Grey decking with Glass Panels and Roof Terrace

# DeckBoards

Our deckboards are available in a variety of colours and boast high strength and extreme durability.

Deckboards are offered in two designs: Classic stipple and deluxe wood grain. Both designs are anti-slip making them safe in the wet. Concealed drainage and fixings prevents standing water and improves appearance.

Classic and deluxe deck boards are made from 83% recycled materials and are tested to BS7679 for slip resistance, BS EN 660: 1999 and BS EN428: 1993 for wear.

## Colour options - deckboards

## Post/Handrail Colours

White

Cream

Beige

Golden Oak

Forest Green

Grey

# Balustrades

All balustrades are manufactured to a unique shape to offer an ergonomic feel and the most attractive appearance. We offer 6 standard colours, 3 of which are foiled.

Steel reinforced 125mm twin-walled posts and bottom rails ensure the best safety and strength to all deckings.

Fossil Deckboards with Grey posts, Glass Panels and Ranch style skirting

## Gates

Hinged and latched gates add an element of security to your deck and are also useful for those with children or pets. They also provide privacy and can be matched perfectly with the balustrade.

## Skirting

All skirting is configured to fit different shapes and style deckings offering an attractive way of finishing your decking and also hiding away the underside of your holiday home. We offer a choice of 3 different styles of skirting.

Ranch style - 150mm Vertical - 300mm Vertical

Ranch style skirting

## Galvanised Steel Subframe

The galvanised steel subframes offered at Forest Decking are an ideal long lasting solution and are completely maintenance free.

Unlike wooden subframes, steel subframes do not rot or require any treatment.

## Steps & Ramps

# Accessories

Acorn

Ball

Gothic

Globe Light

All Decks can be customised with a range of extra accessories. Our kits are supplied with standard post caps although gothic, ball and acorn caps are also available.

Posts can also be topped with a range of lights - We have a wide range of different style lights including LED and solar options.

# Composite Decking

Granite

Stone

Walnut

Oak

Composite decking is engineered from an innovative composition of 60% certified wood reclaimed from post-industrial manufacturing and 40% recycled High Density Polyethylene. Boards are double sided offering a grooved face or a woodgrain face.

Composite deckboards are a great alternative to a wooden deck. Offering a similar texture and appearance to a wooden deck but will not rot and does not need treating or staining.
